

- ❖ **The Scarlet Lions:** Shangor took this band of bandits, made up of the outcasts of the Ivory Savannah tribes, gave them training and self-respect, and restored their honor in the eyes of their former tribes. These men will follow the Northlander barbarian to hell and back. They have a BV of 400.
- ❖ **The Thunderfist:** Once per session, Shangor can spend a Benny to make an unarmed attack with the Drop, his famous "thunderfist". This is a lethal attack.

ZANDORRA THE BLOOD BRIDE

Zandorra is the typical Amazon: proud, competent and bold. She was born in Ascaia, the daughter of a warship captain, and she knew nothing of how women live outside the Holy Island. Zandorra loved both weapons and sails, so she joined the crew of a hawk ship and started the life of a sailor. She travelled to many lands and fought against barbarians and pirates, always side by side with her trusted sisters.

One night, in the port of Faberterra, she met a handsome black mariner from the remote south. Amazons aren't particularly shy, and Zandorra spent the night with him. Nine months later, in the House of Labor in Ascaia, she gave birth to a baby boy. Following Ascaian law, the boy was instantly taken away from his mother. Zandorra wept that night, but only a little, then she tried to forget the whole thing.

Four years later, Zandorra was back on her ship with her sisters. One day, after conquering a slaver's galley, the Amazons discovered an unusual cargo below deck: a group of half-starved slave boys and girls.

The sight of these emaciated children touched something deep in Zandorra's soul: she yearned to see her son again, to hold him in her arms.

As soon as her ship returned to Ascaia, she went to the House of Labor and asked the Midwife Sister to tell her where her son was. The Midwife refused and Zandorra threatened her. The situation got out of control, Zandorra fought some city guards and was forced to leave Ascaia as a fugitive.

Since that day many years have passed, and the warrior-woman lived side by side with her friend, Shangor the Barbarian, during a number of adventures, the two making an unlikely but very effective couple.

A couple of years ago, Zandorra won the command of a pirate ship, the *Blood Bride*, and started a piratical life, side by side with Shangor, but always with the goal of finding her lost son.

One tragic day, during a fight at sea, she discovered that her boy, then nine, had been tortured to death by the Caldeians.

Then something broke inside Zandorra and she became filled with a terrible hate for Caldeia, the whole land and race; she started a personal crusade against the southern kingdom, a crusade which could only end tragically.

Shangor, her first mate and long-time friend, tried to persuade her to abandon this path, but the confrontation ended badly: harsh words were said, blades shimmered and the blood of a friend was spilled.

In the end, Shangor left the *Blood Bride*, alone, and without any reconciliation between the two.

Today, Zandorra continues roaming the Endless Ocean and

occasionally the Dread Sea, ransacking and pillaging, but always against Caldeian ships.

She occasionally takes a lover or two, but nobody, not even her trusted helmsman Vaago, can say the name of Shangor in her presence without risking her anger.

Alternatively, she can spend it to double the Acceleration of the ship for a round.

PLAYING SHANGOR AND ZANDORRA

Shangor and Zandorra are the two iconic characters of the setting. In this book, after five years of adventures, they are Legendary heroes, with a lot of experience under their belts. They have changed a bit during all that time: Shangor isn't as reckless now as in the past, but he is a skilled commander with a deep sense of responsibility for his men, while Zandorra is a strong woman battling with her own rage. If the players are interested in playing Shangor and Zandorra, the characters can be found, as pre-generated characters, in *Heroes of the Dominions*, at Seasoned Rank. Story-wise you can simply ignore this "advanced" version of them (replacing their role with another suitable NPC of your own creation), or, more interesting, you could play a campaign entirely as a flashback: Shangor and Zandorra, who eventually made peace with each other, are remembering their past adventures. Ideally, when the adventurers reach the Legendary level the story reaches the present time and continues as you wish.

As always, these are only suggestions: the Dominions are your world to play in, and only you who can decide how their story will end!

PERSONALITIES OF THE DOMINIONS

In this chapter you'll find a selection of the most influential and important personalities of the Dominions, the real movers and shakers of the setting. They can be used as friends, enemies and occasionally patrons of the adventurers.
